Migration - 8th Congress briefing

(7 May 2019**)** Arguing for a change of approach with regards to migration and changing the European Unions policies which continue to focus on tightening boarders is a major issue at the EPSU congress. The 8th congress briefing gives examples of how EPSU has been fighting to end privatization and increase public investment in the public services vital to ensure the safe and effective integration of migrants and asylum seekers into society.

It outlines the current situation and the challenges that public institutions and their workers are facing. The contribution of migrant workers to the provision of public services is crucial in many European countries and this contribution needs to be recognised.

The last congress briefing on EPSU will be published shortly.

All in English, French, German, Spanish, Swedish and Russian.
